

WHAT IS A JUUL?

JUUL e-cigarette devices look similar to a USB flash drive and can be charged in a computer.

EASY TO CONCEAL

“High school and college students are rushing to retailers to buy the product because its discreet design makes it easy to hide from parents and teachers while also giving the user a big hit of nicotine. Some students have bragged on social media of using the JUUL in class, even though e-cigarettes are banned indoors at most schools.”
